Parking position (B x T x H) in mm:	Working position (B x T x H) in mm:
600 x 280 x 350	800 x 280 x 580

incl. 2 x 18V Li-ion battery pack 3Ah with quick charger unit

Parking position

Your advantages with Butter-FIX

- Butter untreated cooled 5 - 9 °C usable
- uniform calculable spread quantity
- fast working
- no squeezing the crumb
- very hygienic
- no loss of taste by whipping or liquifying the butter
- Buttercontainer can be changed
- suitable for left/right hand
- adjustable flow rate
- hardly any set-up times, minimal cleaning effort
- without power connection
- 500g capacity

The machine can be dismantled into parts for cleaning

You can store the (started) butter in the container in the cooling. The items are dishwasher safe.
